

Federico del Mazo

Résumé

☎ +54 911 6110 1997 • ☎ 011 4656 4494 • ✉ fdelmazo@fi.uba.ar

in FdelMazo • 🌐 FdelMazo

21 years old, Computer Engineering Student, developer at Raico S.A..

Work Experience

Raico S.A.

Full Stack developer

April 2018–Now

<https://www.raiconet.com/>

Development and support of the web application and the mobile app of Raico S.A.

Development of *Exporta Simple*, a web platform integrated with the Argentine Ministry of Production

Technologies: Grails, Java, Groovy, MySQL

Universidad de Buenos Aires, Facultad de Ingeniería

Teaching assistant - Algorithms and Programming II

August 2017–January 2019

<https://algoritmos-rw.github.io/algo2/>

Classes, workshops, making and grading of exams.

Covered topics: C, memory management, algorithmic complexity, abstract data types, data structures (linked lists, hash tables, trees, heap queues), graph theory (minimum spanning tree, traversal) and programming heuristics (dynamic programming, greedy techniques).

Education

Universidad de Buenos Aires, Facultad de Ingeniería

Computer Engineering student

2015–Now

Colegio Ward

Bilingual bachelors' degree in economics and business administration

2009–2014

Grade Point Average 8.29

University of Cambridge

International General Certificate of Secondary Education (IGCSE)

2012–2013

Passed with Merit

University of Cambridge

First Certificate in English

2011

Grade C

March 2019

Specific skills

- **Programming languages:** C, Python, Java, JavaScript.
- **Programming paradigms and algorithm design techniques:** Procedural programming, object-oriented programming, dynamic programming, divide and conquer, greedy algorithms
- **Other topics:** Data analysis, computational complexity, machine learning, MapReduce, graph theory, data compression, PageRank, hashing
- **Other languages:** SQL, TeX.
- **Frameworks and miscellaneous:** Groovy, Grails, Pandas, PySpark.
