

# Federico del Mazo

# Résumé

□ +54 911 6110 1997 • **\** 011 4656 4494 • **\** fdelmazo@fi.uba.ar **in** FdelMazo • **\** FdelMazo

21 years old, Computer Engineering Student, developer at Raico S.A.

# **Work Experience**

#### Raico S.A.

Full Stack developer

April 2018–Now

https://www.raiconet.com/

Development and support of the web application and the mobile app of Raico S.A, a company specialized in international transport services. The system is used daily by 50+ people in the team for the logistics and billing of packages.

Development of *Exporta Simple*, a web platform which helps small producers with export operations, in integration with the Argentine Ministry of Production.

## Universidad de Buenos Aires, Facultad de Ingeniería

Teaching assistant - Algorithms and Programming II

August 2017–Now

https://algoritmos-rw.github.io/algo2/

Classes, workshops, making and grading of exams.

Covered topics: C, memory management, algorithmic complexity, abstract data types, data structures (linked lists, hash tables, trees, heap queues), graph theory (minimum spanning tree, traversal) and programming heuristics (dynamic programming, greedy techniques).

### **Education**

### Universidad de Buenos Aires, Facultad de Ingeniería

Computer Engineering student

2015-Now

#### Colegio Ward

Bilingual bachelors' degree in economics and business administration Grade Point Average 8.29 2009-2014

#### University of Cambridge

International General Certificate of Secondary Education (IGCSE) Passed with Merit

2012–2013

#### University of Cambridge

First Certificate in English Grade C 2011

# Specific skills

- o **Programming languages:** C, Python, Java, JavaScript.
- o **Programming paradigms and algorithm design techniques:** Procedural programming, object-oriented programming, dynamic programming, divide and conquer, greedy algo-

### rithms

- o **Other topics:** Data analysis, computational complexity, machine learning, MapReduce, graph theory, data compression, PageRank, hashing
- Other languages: SQL, TeX.
- o Frameworks and miscellaneous: Groovy, Grails, Pandas, PySpark.
